The health, safety and well-being of our community is our #1 priority. In that regard, we have hired a leading health, sanitation and cleaning company that will be implementing "best practices" in health and safety procedures throughout the Edgewood property. They will be overseeing the sanitization of the entire club and also guide and assist in implementing "best practices" in the day to day programming and activities of the club to ensure the highest level of safety for our members and staff. We recognize there will be a "new normal" in today's world and assure you that there will be no greater priority for us than insuring the safety and health for everyone.
